The brothers of the other side

Not long ago, there are many movies about Astral, Fallen, negative extraterrestrials and the Dark Brotherhood. I hope this article can help to serve many in understanding what are these people and how they really influence us. In fact, most of the time, the real dark brotherhood is not really as scary as we think they are. These in fact are the plan of the illuminati to create an illusion that we are still under the mercy of these extraterrestrials and astral beings. Now I would share some truth about how “powerful” these beings are.

Astral beings as we all know are beings that have moved on when they die of shock and they are nothing but beings in the 2nd and 4th dimension. One very obvious issue here is that they cannot touch us! It is our fear programming from horror movies that Astral beings can hold a knife or kill us through the TV. These are all nothing but fear! It is the plan of the illuminati to make us believe the astral beings are things to be feared and we have to in their mercy. Astral beings can only hook on. They are most likely to just cause you a small headache or make an object damage more easily. So do not be worried too much about the flying chairs and table. They rarely happen. Unless there is an dimensional tear, then they can touch 3rd dimension object. But most of the time it is so rare. I think it is rather amazing if you see table fly. This is because it is not easy to witness a dimension tear.

The fallen ones are no longer here. Yes those which Elizabeth Claire Prophet talk about in her book “*Fallen angels and the original sins*”. These fallen angels after they had came to earth and caused a lot of problem are no longer in earth. So where they, one might ask. They are now locked up in portal that does not exist in the human realm. It is the place where only GOD can allow the re-opening and no one can invoke its opening. So when these dark ones are invoked, their energy that comes true is not even one millionth of their original energy. The place is guarded by the legions of light and all who trespass the place will be invited to leave. So having said that who is the one who convinced us that fallen angels are still living with us? - The novels, the media and the ones who created games on the fallen angels. These authors consciously or sub-consciously have given their power to the fallen ones and they help to amplify the illusionary power of these dark ones. However the power is glamorous, it is nothing but the amplification of the person’s fear.

Extraterrestrials are interesting to talk about. Ever since the signing of the Inter Galactic treaty witness by the galactic federation, there have been no more alien abductions. This

spells good news. Now the problems is there are still some jokers out there who did not sign the contract and they are under arrest by the Asthar command and the Galactic federation. Why I know that, because I dealt with some jokers recently. That is why I relate my experience. But fear not as they are easily removed as long as you call forth any other Christed extraterrestrial help. One of which is the Orions, they are great in dealing with attacks from such beings. Call forth the Orions to use the crystal ice-healing agent or just call forth the Orions to do the removal. They will clear it for you. So how does these entire problems come about? Again fear.

In the battle against the dark brotherhood, we must always remember they are trying to manipulate our fear! The moment we give in that's it! So it is vitally important not to fear these jokers. They are nothing but just lost soul who needs the light. When they come to you in threat give them love. Amplify the love every time you are hit on the face. Call forth St Jude to pray with you to help you to clear the beings. Remember the dark brotherhood is souls who believe in no love. So they have not experience love. So pray for them if you wish so that they can experience love which is the only true thing.

Dear Source

May the light shine on those who are lost

May you shine more love to them

May everyone of the dark brotherhood be shown love and light

May the light be the only thing left in this world

And so shall it be

Amen

Pray for them instead of fear them. They need our help so that they can come back into the light. Remember GOD created everyone of us. The temporary lost of their identity should not be condemned for life. GOD is forgiving and merciful now and forever will be.
Amen

Namaste

Rev. Khemery and Source
