

## A Fairy's Story

We often find ourselves talking about the angels, archangels and the Ascended Masters in the spiritual movement. The idea is that these beings are more than often associated to the higher realms and that they are always with us if it so happens to be? But remember the magic of life is around us? What happened to the fairies and the unicorns and the other earth beings? They are totally removed from the spiritual stage by many. Not because the fairies are not contributing but more towards the understanding is not there.

As much as I would like to share to you about the fairy kingdom, this article is not to share awareness about the fairy kingdom. Whys is it named the fairy's story then? The reason is because I would like to share with you information on why is there a need to be aware of the fairies.

Recently, as most psychics may have observed, there is an enormous change in the energy fields on earth. Now this is not very common and it does not happen frequently. But what is causing all these? The truth is that there is an influx of energy from the higher realms being anchored to earth from the cosmic level to earth. Now we all know there is the opening of the Orion star gate to earth. However, this is not the main reasons that cause the disturbances. The reason is that there is now a bridge built to connect the earth and heaven all together. The builders of the bridge are the fairies and angels from the angelic realm.

Now you might wonder where this bridge is. The answer is simple, **You** are the bridge. Why and how did the bridge establish. Now you have always been the bridge. Every time you anchor energy, you will do grounding which bring the energy down to earth. However that was in the Piscean age, in the Aquarian age, there is simply too much energy that people hold. So the grounding is not effective in constantly sending the energy down to earth (not to mention people do not necessary ground). So the fairies and angel brings the energy down from source and up to the heaven. This will create the perfect balance in you and for mother earth.

This cannot be explained by just plain language. In fact like all people have a guardian angel, there is a **guardian fairy**. So for people who are highly evolve, it is good to get in touch with you guardian fairy. For those who are beginning to learn all this, just in meditative state call forth your guardian fairy and say you want to get in touch with it. It will be happy to serve you.

Now for the actual energy work, now when you are in meditative state feel that your guardian angel is bring energy from the source down through you. Then feel your guardian fairy bringing energy from the source beyond the earth up through you. The two energy flow would form a **caduceus** band and you will be the bridge. All you need to do is to relax and feel the energy.

It is good that you do it at least once a day because this helps bring energy into your body also. However once this visualization is done, the bridge would stay with you for the rest

of your life time. So there is no big concern about it. Everyone is part and parcel of this big consciousness.

Due to the construction of the bridge, many people are clearing very rapidly or progressing massively in light quotient. Remember that it is still a necessity to anchor your character. The true aim is total integration! Enjoy the energy and the connection.

Namaste
